TWS=N !

3 this is line 2 on screen but line 3 on paper as TWP = Y

4

5 this file "check.txt" is displayed with GEDIT

6 Display Parameters are

7 TWS = Text Wrapping on screen = N = DHA default (prefs/view/text wrapping)

8 Display right screen margin at col 96, that is cursor between >< (pref/  
view)

9 (as 98 cols are printed there are 2 chars left for safety)

0 Screen Font = system fixed width Monospace 16

11

2

3

4 Print Parameters are

5 TWP = Text Wrapping on Paper = Y = DHA default (print/TextEditor/Enable  
text wrapping)

6 printed without header

7 print font = Monospace 9

8 ~/.gnome2/gedit/gedit-page-setup reads :

9 A4 / 210 / 297 / top=bot=right = 6 / left = 17 mm

0 print-to-file pdf / ps
